

Month 1, March/April 2015 Month of *THE Abib*, that is: *THE Spring celestial sign* known in English as “The Vernal Equinox”. See special study > “THE Abib” on the Web site [Calendar Web Page](#). (“Abib” did not originally mean “green crop ears”, a later meaning only)

□ ** The

Passover meal is just after the beginning sunset of day 14th of Month One, the evening of our **April 2nd** Ex.12:2; 13:4 (Not on the 3rd)

May/June 2015

* YHVH's spiritual calendar year is a **standard fixed** at 364 days which may be divided into 52 Sabbath Periods. A solar year is 365 days. By God's wisdom, the Scriptural 48 hr Sabbath aligns the extra day (365th) each year making 26 Sabbaths in each half of the year. On this month each year the Sabbath will "advance" one named weekday (mon through fri) on our Roman calendar. Then we count seven days 'til the next Sabbath. The scriptural authority for the "48 hr Sabbath" is discussed in the [Study Notes PDF](#). Pentecost is on the 5th of this month from sunset to sunset.

August/September 2015

The Scriptural months are 30 days each x 12 = 360, but the astronomical year has 365 days. Three astronomical "extra" solar days end and complete month six as seen above. By YHVH's design this purposely "uses up" 3 of the 5 extra solar days in a year, and automatically sets 6 work days here between the Sabbaths from the 27th day this month until the 1st of month 7, Sabbath[as per Num. 29:1] Day 1 of month 7 is a required Sabbath (Lev.23:24 law). Two other solar days are seen after month 12, further proving the calendar "from two or three witnesses." **Mat 18:16. These days "fall in" here of their own accord by the Sabbath law which commands 6 days between Sabbaths**, and are not arbitrarily inserted.

12 (Leap years only -- astronomical calculations interwoven with Scripture)

February/March 2016

The "extra days" are not arbitrarily inserted, rather Yahweh has diligently worked this out in His Sabbath Laws (*see month 6 notes*)* The last two solar witness days (4&5) **fall in place of their own accord**, because The Law declares six work days to be between Sabbaths BEFORE we have the required Sabbath on Abib 1 (of the next year). These "two or three witness groups" (Mat 18:16) verify each half of YHVH's year, further proving this fixed solar calendar system. Additionally, regular years have 365 days. A leap year (as here) has 366 days due to the Earth's specific orbit around the Sun. Amazingly the 366th day "falls in place" naturally also (just when necessary) and "fits" to keep the fixed calendar continuing right along permanently.
