

*Photo supplement to the audio sermon “Female Serpent of Eden – Part Six”*

**Shown below is the star constellation Canis Major.**

The bright star near the dog’s nose is Sirius, also known to the *Nachash Nodite Star Cult* as Isis, Astarte, or Ashtoreth (The Queen of Heaven).

The occult meaning of this star is the deification of the Temptress in Eden.

The in-depth analysis of this star in history is explained on the audio sermon.

The significance of the position of Sirius to that of the Sun in late July and August and the historical ramifications are also detailed on the audio.
