### **Why nobody has been magnetized**

*Kenneth Lent – August 2021*

Some revealing information about the psychological warfare against God's people

Contrary to video web claims galore, nobody has been magnetized by the big pharma poisonous and harmful jab deceptively being promoted by the world system as “the Covid 19 vaccine”. In fact, to believe so and to circulate such unsubstantiated dialog is playing directly into the hands of the opposition. It is furthermore solidifying Mystery Babylon's psychological death grip upon the docile lambs of the Good Shepherd Jesus, the King of Kings. Both mainstream and alternative medical sources have long known that injections into the bloodstream of metallic substances that would cause the flesh to become anywhere near “magnetic” would be so astronomically huge in amount that any recipient of such a shot would be dead instantly upon taking it. If anything, it would have to be something along the line of a mega intravenous delivery, along with a heart and lung machine attempting to keep the body alive, while a mega toxic overload of ferrous materials are pumped in to blood *trying* to make the skin magnetic. Nobody is living through a scientific experiment of that nature or anything remotely near it.

But this article is not intent on specifying how, or to what degree, such an injection of magnetic materials (if even possible) could produce magnetic results on someone's skin. If common sense will not suffice in realizing how even a relatively small imbalance of metals or minerals in the body can be instantly fatal, the reader is welcome to “web search” the topic for himself. Do not misconstrue this article as being supportive of the administering of the Covid 19 so called “vaccine” to anyone anywhere. It is not. What we are concerned with here is understanding exactly how the spread of a popular fad rumor that people are becoming “magnetic” from the Covid jab is in itself an integral part of the psy-ops war being used against the West (particularly America).

Explanation:

First of all it is imperative to grasp that the psychological warfare implemented against the Adamic (white) family of the world for nearly 6000 years is far greater and much more sinister than most researchers into the world conspiracy have discovered. Since the head of the adversary system is bent on enslaving the world for its gain, the

Nachash/Nodites (Scripturally identified in our audio sermon series “Feminine Serpent of Eden”) have become the ultimate experts in controlling the nations by psychological manipulation, followed by occult infusion into religion, followed by political indoctrination, followed by violent revolution to overthrow liberty and Godly rule in Christian lands. With the establishment of dozens upon dozens of integral groups and commissions [Jesuits, Rosicrucians, CFR, ADL, Skull&Bones, IMF, Bilderbergers, Knights Templar, etc, etc, etc] the Nachash/Nodites have long ago achieved their goal of controlling the minds and actions of our people. (for a quick view of these groups see [this chart](#))

Only by the anointing of the Holy Spirit of Yahweh God Almighty can a person come to an understanding of how devious the psychological program against Christians has been and continues to be. On a positive note, God Almighty promises that if we stay with Him – we win this war. (1Jn.5:4; Mat.10:22)

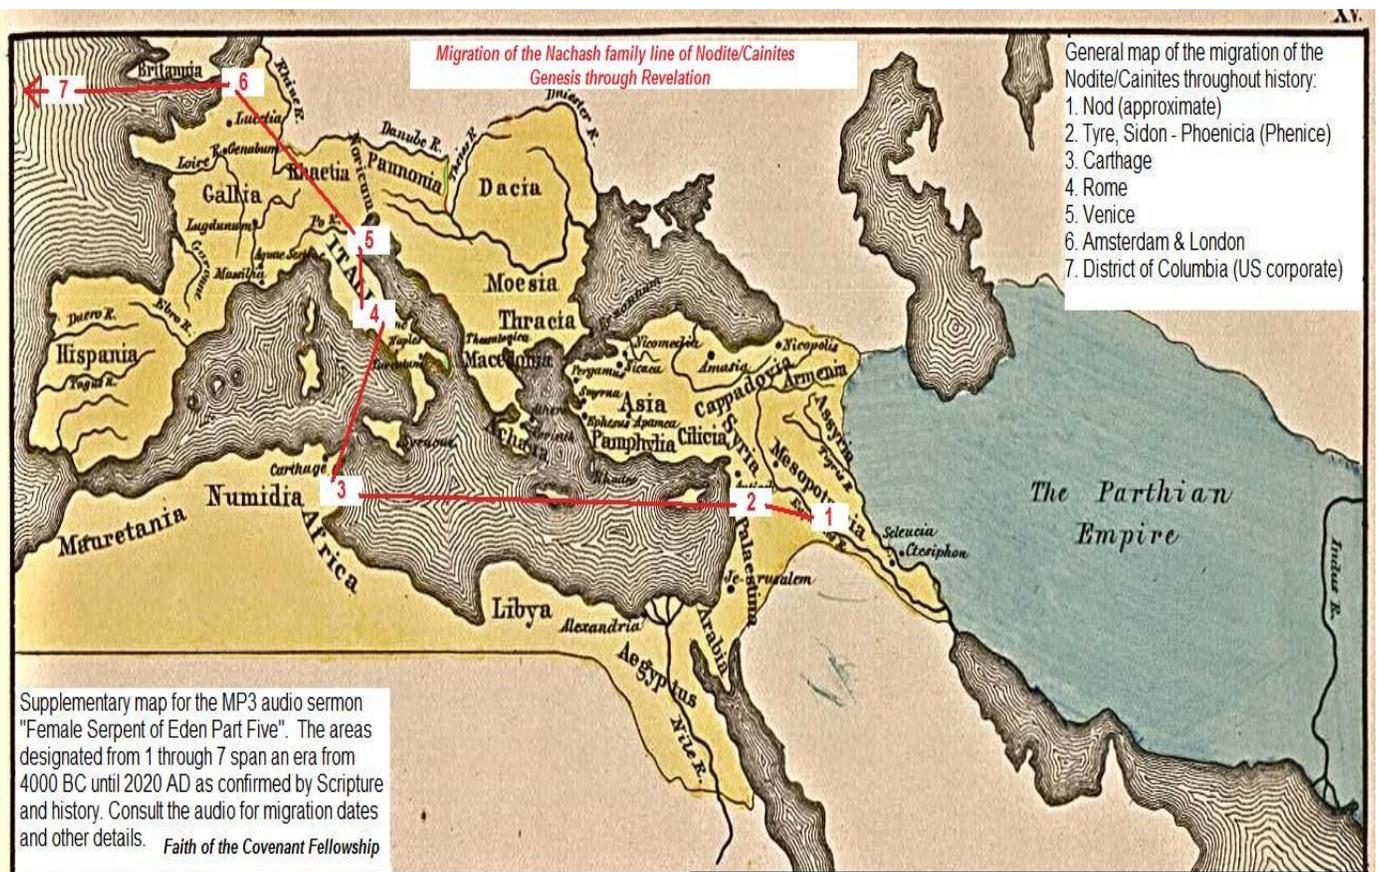

Before we get into the connection between supposed “Covid 19 magnetism” to that of the psy-ops war, a few basics of the “how’s”, “why’s”, “what’s”, and “who’s” of the age-long mind control program should be briefed. This one subject alone could easily be 100 pages but in order to facilitate an easier flow to this article it will be kept as short as possible.

What we’re dealing with at the top level goes way beyond the common conspiratorial viewpoint that “the Rothschild Zionist bankers” are doing it or “the Catholic church” is doing it, or “the Communists are doing it”. True --- these plus other groups have had a heavy hand in the antichristian conspiracy [Of these three mentioned the Vatican dominates]. But when all is said and done what we are witnessing today is primarily a continuation of the old battle between true Israel and the Canaanites. However, things have morphed into a “high tech” contest as opposed to swords and bows as in the ancient days.

For those who may be new to the subject at hand; as exhaustively explained with references in our audio series “The Feminine Serpent of Eden”, the tempter of Eve (The Nachash) is proved to be a radical female from Nod, and not any sort of Catholic Devil/Satan who fell from the sky. Yahweh God judged both Eve and Nachash (symbolically the “serpent”) after the law for two women in the Bitter Water Trial described in Numbers chapter five, with Nachash being condemned and Eve being exonerated. The age long contest between Eve’s seed and the “serpent’s seed” of Genesis 3:15 is a contest being two feminine lines. To make a long story short (for our purpose here) Cain went to Nod with the female Nachash, both producing more into the evil family line already there, and these became “Cainites”. Cainites from Nod then migrated to multiple places in the old middle east including Canaan, Egypt, Babylon, Chaldea, etc, quite literally seeding that entire area with their offspring. [note: Canaan doesn’t specifically have anything to do with the name Cain, although many Cainites wound up in Canaan]

History records that this evil seedline family of Nachash became known as The Black Nobility [because of their deeds and not because of any skin color] and eventually migrated from Canaan, to parts of Egypt, to Carthage, Rome, Venice, on to Amsterdam & London, and then into the colonial area of Baltimore and Washington D.C. (via the Catholic church) In all this time they have controlled the criminal and immoral industries of banking, drugs, news media, war profiteering, and institutional religion. What rained on their parade heavily was the American Revolution of 1776 with America being able to break the cycle of Nachash control of our population for approximately 90 years of the early Christian USofA Republic which was, in effect, based upon the Commonwealth mentioned by Paul in Ephesians chapter two. The Nachash/Nodites [by Jewish banking houses] attempted militarily to regain control of America with the War of 1812. It proved a second knockout punch to them as Americans were victorious again. It was from that time on that the Nachash/Nodites (the “serpent’s” feminine family line) began an all out assault of the psychological war against America.

**Map of the migration of the Nacash/Nodite/Cainite race. Genesis through Revelation**

\*\*\*\* The reason is is necessary to understand who the Nachash/Nodites are (where the Covid 19 plandemic is concerned) is because it is this family group who ultimately controls the world system that is pushing the NWO agenda upon us. \*\*\*\*

It is imperative to understand that down through the centuries the Nachash/Nodites (later called Canaanites) have maintained their primary directive of worshiping and sacrificing to the star Sirius of the constellation Canis Major. This star (the brightest star in the sky) is believed by the Nachash star cult to be the deification of Nachash herself, the feminine “serpent” of Genesis. Confirmation from the Word of God tells us that our big problem has always been with the mega cult of star and planet worshipers (Deut.4:19; Obad.4; Isa.47:12,13). Please reread and retain this last sentence as it has much to do with what kind of “magnetism” is being promulgated by the Covid plot.

Our long trek through history has not changed this fundamental truth. The star Sirius has been known by past and present occult devotees as the goddesses Isis, Astarte, Ashtoreth, and Mary the Queen of Heaven, among several other names. The purpose of the Nacash/Nodite cult (then an now) is to appease their “star goddess” in order to bring down supposed celestial powers in an attempt to build a better Garden of Eden in the Earth than did the Creator, Yahweh Almighty. They are quite criminally insane but extremely wealthy, intelligently evil beyond compare, and dangerous. They will and have murdered, mutilated, and destroyed civilizations in their sinister quest for “star power” *that does not exist*.

It is beyond the scope of this essay to list the endless atrocities committed by the Nachash/Nodites over the last 6000 years. But let’s realize that first before their political aspect of the conspiracy, the “star cult” views star sacrifice as the priority. As with their religion in ancient Canaan, so it still transpires. [Canaan was so named by the Egyptians when they occupied that land for several hundred years circa 1500 BC, therefore ancient Egypt has a major occult connection with this scenario] The vast majority of today’s Christian researchers only see the political actions perpetrated by the Nacash/Nodites, and do not realize that politics is only secondary to the schemes of this fanatic cult. Human star sacrifice is always paramount to them. Later comes the political level of the operation which they promote through Zionism, Catholicism, Socialism, Communism, Capitalism, Democracy, secularism, contrived crises, and so forth.

“Sirius is emblematic of hidden power and secret allegiance to an invisible empire”. (M Hoffman, Secret Societies and Psychological Warfare, 1989, 2001; pg.30)

“The heliacal rising of Sirius was so important to the ancient Egyptians ... that gigantic temples were constructed with their main aisles oriented precisely towards the spot on the horizon where Sirius would appear.” (Robt. Temple, The Sirius Mystery, pg. 87).

Needless to say, the psychological warfare devised and used against unsuspecting Adamic Saxon societies plays a vital part in the Nacash Sirius star cult’s lust to rule the

world. A major part of that psy-ops is a *bending* of people's thoughts to conform to the Nachash bidding of world dominance. In this they carry out a program of "alchemy" to change people into what they want them to be --- docile slaves who consent to the takeover. Ancient alchemy never was an attempt to change base metals into gold. That was the front for their magical practice of mental psy-ops. What they want is to change masses of people from those who still may possess any last vestiges of bravery, freedom, and liberty, into people who shall willingly enter the "new age" in their "New Eden", i.e: world communism run by the elite Nachash/Nodites and their sub groups.

This, in an historical nutshell, brings us to the latest Nachash psychological attack via the Covid 19 hoax which has crippled and further divided the people of America, as well as Europe.

Most readers by now have heard from many brave doctors and virologists who have risked their profession and livelihood to expose the physical dangers associated with taking "the jab". We won't add to those warnings here. We are examining what the term "magnetized" has to do with the mental manipulating of the masses that has come along with the entire Covid debacle.

In their centuries' long refining and learning how to psychologically control nations, the Nachash Sirius star cult (known as Mystery Babylon in Scripture) not only views an alchemical changing of people's minds to be constantly moving toward their takeover of the whole globe, they also glory in their egocentricity in doing so. They are brash in their methodology. They love to "rub salt into the wound" to embolden their psychological training of mankind. The abusive master kicking the obedient servant around in delusions of superiority and self deification. In this respect (other than in 1776 America) they have not hit a significant road bump to slow down their program. Playing the part of "the evil King" this international cult has discovered a unique mental phenomena in further subjecting their "serfs" to the mental training which they have honed to a fine art over the ages. Namely --- subject the guinea pigs (the people) to any number of psychological experiments in a progression to continue the change (alchemy) in their thinking pattern, *then reveal to them* that "they have been had", *while* simultaneously training them to actually accept their mental and emotional capture. *Or better yet* make the guinea pigs crave the masochism of their situation where they beg for more abuse (more "event thrills" and passing the thrills on to others by video forwards Online).

People mentally defeated and in a state of apparent helplessness will do bizarre things. Take the [Stockholm syndrome](#) for instance. This is a situation where a person has been kidnapped and abused to the point of hopeless rescue, thus the victim begins to

sympathize with and defend his/her kidnapper. Strange but true. With the “Covid magnetism claim” we can recognize something akin to this behavior, although not exactly. Let us continue:

In a short but necessary digression at this point it would enhance the discussion to mention a few (of thousands) of instances where “abuse purposely revealed” has been a powerful weapon of the “mind attackers”. Yes, they tell us what they do and taunt us with “what are you going to do about it?”. [getting angry yet Christian sheep?]

The French Revolution of 1789 is an example of how the Nachash Sirius star cult beheaded thousands of French people who didn’t like the idea of a group socialist type of government. Tens of thousands of heads rolled on the guillotines as the Illuminati led revolution set forth to change the French government of that day. When the revolutionaries were done they celebrated their victory by having a naked lady prance upon the altar of Notre Dame where she was held in honor as the newly formed state’s “goddess of reason”, a direct representation of Sirius the star, who is the feminine Nachash deified. The Scriptures tell us that Nachash reasoned with Eve that if Eve rebelled against God that: “Thou shalt not surely die but ye shall be as gods” (Gen. 3:5). The Illuminati revolutionists of France had basically revealed to the population that the whole revolution was a radical feminist endeavor dedicated to “the goddess of reason”, and that the nation could enter into a goddess-like utopia state. Did the French population properly decipher the symbolism? Hardly. Most just accepted their fate, and the Sirius star cult’s sacrificial offerings of numerous decapitations became well suited for their gloating victory.

The Kennedy assassination was another monumental sacrifice of an occult nature. We have been led to believe that it was merely politically motivated. But the underlying signs revealing the true intent were certainly there for all to see. Psychologically, we were being told “gotcha again” by the Nachash star cult, yet most of America is still so absorbed in the *political theories* that the occult perpetrators felt quite safe in openly revealing the motives (knowing how dumbed down the sheep really are). Again they bragged – “we did it, we told you we did it, now stop us if you can, but you can’t so accept it”. Ritual murder. Here’s how we know the Kennedy assassination was a staged occult psychodrama to bludgeon the national mind: These Sirius assassins don’t just randomly execute people. They set a stage for the performance. On November 22, 1963 President Kennedy was ritually murdered near the site of the first Masonic lodge in Dallas, Texas. The route of his travel was at the conjunction of the 3 Triple Bypass highways which span the Trinity River below, all of which are located just south of the 33 degree latitude line geographically. The Illuminati Masonic order has 33 levels of membership. The Illuminati was established by Adam Weishaupt in 1776 in Germany to progress a new world order. The Illuminati specifically set forth to infiltrate the Mason

Guilds of Europe which were previously professional guilds of educated people who wanted to keep their talents at a high level and pass them on to future generations. Weishaupt's groupies were able to change the direction of many Masonic lodges in Europe into organizations fostering devious universalist programs. Weishaupt was a product of Catholic Jesuit education.

The "trinity connection" of Kennedy's murder has a clear connection symbolically to the Trinity doctrine of the Catholic church, which holds that the supposed "Mary the Queen of Heaven" is ultimately "the mother of God". In occult reality, this substitute "Mary" is none other than Sirius the star "in heaven", Nachash deified. Although America didn't pay attention, we were all plainly told who was behind the Kennedy assassination since they went out of the way to "perform" it on a huge Illuminati Masonic stage. There was no hiding of the symbolism. To note the further revealed abuse to the nation at that time, the patsy for the assassination was Lee Harvey Oswald (pronounced Ozwald), who was subsequently killed by Jack Ruby. So we have OZ and RUBY, a throwback to the Wizard of OZ movie with Dorothy and her RUBY slippers, from a fantasy world full of occult content produced by Hollywood.

The movie industry is yet another agent of the Nachash/Nodites used in mentally changing, by psychological alchemy, the emotional derailment of America. So you see, "they" tell us what they are doing, and laugh at Americans who continue to drink from the trough of Nachash worldly reasoning for "education", "news", "community church going", and presently many but not all "web videos" too. By their own revelation of the crimes against us they are empowered yet more. It is the ultimate pillaging of a victim's mind to be openly told he is being slowly tortured by his abuser *and* have the victim embrace it as a thrill. We'll see shortly how the group thrill of the "Covid magnetism", which is illusionary, fits into this puzzle.

As with the aforementioned Wizard of Oz movie, Hollywood silver screen productions have been a favorite method by which the Nachash Sirius star cult openly reveals to a reeling public that the public is being mentally raped. Yet the public perceives it as entertainment and even pays to be molested. Movies such as The Omen; Rosemary's Baby, The Craft; 2001 a Space Odyssey; The Matrix; The Exorcist; Apocalypse Now; Silence of the Lambs; The Wicker Man; Angel Heart; Starry Eyes; and untold dozens more, have all had major occult nuances that have affected the subconscious of millions of theater goers. To cite some examples:

The Mel Gibson movie "The Patriot" released in 2000 predicted the 911 attack that would not take place for another year. In the scene where Gibson is making a wooden chair, he finally weighs the chair and announces "9 pounds, 11 ounces". "911". Whereupon he sits in the chair only to have it collapse into pieces under his weight.

Material destruction. How bizarre. This was clearly a message to the audience, as it is a script line that had nothing to do with the movie plot whatsoever. Whether Gibson knew the significance or not, the intent was unmistakable in retrospect to 9/11 of the soon to be World Trade Center attack. Somebody in charge of the movie script was announcing an event that was to change the emotional status of America for good. They were exposing the event before it happened and had no qualms in doing so.

Another movie where we are plainly told of the Canaanite star cult's rule of the world is the movie "The Truman Show" starring Jim Carrey (1998). The plot revolves around Truman Burbank (Carrey) who was adopted at birth by a television show corporation that raises Truman on a dome covered island with cameras that follow his every move 24/7. The island is actually a movie set made up to appear as a suburban American community. All of Truman's neighbors are actors for this reality show which is broadcast across the nation, unknown to Truman. In the real world, *our* world, where people enter the movie theater to absorb this "subliminal injection" of occult management, two notable facts are presented (although more could be analyzed). First, Truman lives under a dome. He's captive. Planting the idea into American theater goes to minds that living under a captive dome environment is the future to be, namely: "ok we give up, we live under the dome of your control". Secondly, in one scene where Truman begins to see that things just aren't right in his world a studio light that is used to simulate stars on the dome-island suddenly falls from the set's highly constructed sky ceiling and crashes near Truman. When Truman walks over and views this studio light we see the inscription on the light and it reads "Sirius, Canis Major".

Most theater people had no idea what this meant but the Sirius star cult does. They flat out tell us in this movie that the star Sirius is the central light of the controlled dome environment. It was a revealed statement that our American controlled situation is rigged by the Sirius cult and yet "you people are so under our power that you can't see it even when we toss it right in your face." They expose themselves because it emboldens them. In fact they *love it when people expose them and their activities* as long as the people don't physically revolt or physically organize together to become independent of their controlled society.

In a twist of irony, those who sit all day at their PC and forward videos to "expose" the enemy are actually doing the bidding of the enemy in their deeply implanted psycho-attack against us. "Exposing them" is not a threat to them. They have been exposing themselves to us for a long time. To have all of America spend time locked in their chairs at home "exposing the enemy" and never to band together in actual active revolt or skilled survival preparations to outlast the Nachash suits them just fine. "Expose us all you want, and we'll even help you do so" has been the modus operandi of the Nachash/Nodites since recorded history began. Encouraging extensive hours spent on

the Internet and I-phones has become a convenient playpen in which the Nachash can monitor and mesmerize the “sheep”. TV, newspaper ads, billboards, radio programs, books and periodicals, and other forms of communication have all held messages from the Canaanite (Nachash) star cult in which they reveal their motives and dare us to figure it out and stop them. They are risk takers and enjoy the game which entralls them. They are confidently convinced that they can’t be stopped. But in this they are mistaken as our King told them “ye do err not knowing the Scriptures nor the power of God” (Mat.22:29). The real question has become “who among the faithful will remain to greet our King when He arrives to destroy the world system?” Answer: Those who have not been “magnetized”, that is, *mentally mesmerized* (hypnotized) by the psycho-war of the enemy.

This has nothing to do with whether or not a person has “magnetic skin” from taking the Covid 19 jab. Psychological magnetizing is the result of the entire Covid farce. It means that the population has been hypnotized by the mental war brought against them to the point of their consent in wanting to be hypnotized. The outward manifestation of this consent is a population which now claims to be “magnetic”, loves to claim to be “magnetic”, gets angry toward anybody who tells them they are not magnetic, even though not one person has become physically magnetized in their body from taking the jab. Remember the Stockholm Syndrome. The captor is so beaten mentally that he concedes and consents to the abuse.

Like a trained animals, Covid victims now want to be “magnetic” (hypnotized) by their trainer, and share with others the thrill of being “magnetized”. It was Anton Mesmer, the supposed “psychic healer” and father of modern hypnosis who coined the phrase *animal magnetism*. We get the term “mesmerized” or “mesmerism” from the medical practices of hypnotist Anton Mesmer. Therefore a little background into Anton Mesmer is in order.

Franz Anton Mesmer (1734–1815) was an Austrian physician and Illuminati Freemason who held a fascination with the stars and planets. (not surprising) Mesmer was known for “magnetic healing” but not in the sense that we see some results today from some pains by the use of certain magnets. Mesmer believed that a “universal fluid” was transmitted from the planets and stars which affected the human body. He referred to this “fluid” as animal magnetism. But he insisted that only by his suggestions being accepted by his patients that a type of control could be gained over the animal magnetism for healing. This art developed into today’s methodology known as hypnotism. At first Mesmer concluded that regular magnets could be used to direct the animal magnetism coupled by his trance suggestions to heal the feeble. But the idea of coupling magnets with hypnosis wasn’t Mesmer’s idea. It was the creed of a Jesuit

priest by the name of Father Maximilian Hehl who introduced Mesmer to magnets.

Mesmer had written a thesis “On the Influence of the Planets” which was read by Hehl, who was the court astrologer to Empress Maria Theresa. Hehl gave Mesmer his first magnets for use in his hypno-magnetic treatments, along with blood letting which Mesmer was also a practitioner of. Healings of sorts were claimed by Mesmer’s patients which can be explained by the dopamine euphoric drug produced by the brain itself when a patient is joyfully convinced that “he has found a magical doctor”. Mesmer’s healings could not be scientifically verified but achieved great anecdotal testimony by his many followers.

As Mesmer’s ego grew due to his continued practice and a substantial following of patients, he concluded that his own body was more magnetic than magnets. He grew more aggressive in his own “power” of suggestion and trances which he would induce upon his patients. Later Mesmer consulted with another Priest, Father Johann Gassner, who was an exorcist of the Catholic church. Gassner believed in the superstition that illness was caused by demon possession and only an exorcist’s own power could “drive the demon out”.

Mesmer was attracted to the idea of a person himself being the source of animal magnetism so he stopped using Hehl’s magnets and proceeded to treat people by his own bodily “powers”. He then took the position that this bodily “magnetism” was aided (as in witchcraft) by the use of a wand or iron rod. In 1778 Mesmer moved to Paris from Vienna. His own special hospital looked more like a séance parlor than a hospital. The rooms were filled with crystal objects, mirrors, incense perfumed, and were dimly lit.

For group sessions there was a large wooden tub into which a Leyden jar was placed (electrical charged) with rods protruding which patients would all grab simultaneously. On the tub’s top were Masonic occult symbols including a pyramid, and radiating Sun, through which the Leyden jar appeared as the All Seeing Eye. Mesmer would appear to his patients dressed in purple robes, golden shoes, and holding an iron rod. It was clear that he was more of a wizard than a physician. However the public was even more charmed with what they saw in Mesmer compared to the dull local hospitals, and Mesmer’s fame dramatically increased. Plainly put --- the public loves a show.

The hypnosis of animal magnetism which Mesmer was able to apply to his patients produced much hysteria and many convulsions in them. Due to his commanding hypnotic suggestions many patients excitedly “flipped, flopped, and screamed with convulsions” so violently that they were taken to a special padded sound proof room

until they were “healed” and had calmed down. Many people swore to the healings and Mesmer was becoming wealthy. At this point even many French noblemen and politicians were seeking Mesmer’s exotic treatments to the extent that King Louis XVI called for an investigation concerning the national fame of this “physician”. Were these healings valid? Were they temporary due to wishful thinking? Were the people just being hypnotized by Mesmer’s animal magnetism? Or were they really being “magnetized” mentally by wizardry? What, what, what, was going on? The King had asked for help to determine the many questions surrounding Mesmer and his doctrines. It was none other than Dr. Benjamin Franklin from America whom the King entrusted with the leading commission for the investigation. After laborious efforts of investigation and many interviews concerning Mesmer the Franklin royal commission declared that Mesmer was a phony using the power of suggestion and showmanship to captivate his patients. “Animal magnetism” was never found to exist as any new force other than in the minds of Mesmer’s followers. Franklin stated:

*“Perhaps the history of the errors of mankind, all things considered, is more valuable and interesting than that of their discoveries. Truth is uniform and narrow; it constantly exists, and does not seem to require so much an active energy, as a passive aptitude of soul in order to encounter it. But error is endlessly diversified; it has no reality, but is the pure and simple creation of the mind that invents it. In this field the soul has room enough to expand herself, to display all her boundless faculties, and all her beautiful and interesting extravagances and absurdities.”* --- Benjamin Franklin, Report of Dr. Benjamin Franklin, and other commissioners, charged by the King of France, with the examination of the animal magnetism, as now practised in Paris (1784)

Likewise, Thomas Jefferson, who was living in Paris at that time, considered Mesmerism “an imputation of so grave a nature as would bear an action at law in America.”

Anton Mesmer was eventually asked to leave France after mounting accusations of fraud compelled him to do so. The French people were appreciative of Franklin’s investigating commission and thanked him greatly for revealing the truth about hypnotic animal magnetism, and realized that the only magnetism was Mesmer’s hypnosis.

"No fanatics ever divulged notions more wild and extravagant; no impudent empiric ever retailed promises more preposterous, or histories of cures more devoid of reality, than the tribe of magnetisers". Pearson, John (1790) a British barrister. *A plain account*, p. 37 [Pearson in effect means “hypnotizers”]

*Mesmerism: The Operator Inducing a Hypnotic Trance*, engraving after Dodd, 1794. Plate from Ebenezer Sibly's book, *A Key to Physic*, 1794.

Anonymous French cartoon, *Magnetism Unveild*, 1784. Benjamin Franklin is shown brandishing his exposé of animal magnetism, while Mesmer flees with his loot on a witch's broom.

Hopefully by now the reader is seeing the connection between the Nachash cult's psychological war against the Christian West, their repeated propensity of revealing their acts to their victims, obtaining the victim's consent, and the words "Mesmerism" "Magnetism" "Hypnotic suggestion" to be nearly identical and closely related. When controlling a group (or nation) the Nachash star cult considers magnetism to be defined in terms of psychological hypnotism and not in terms of metallic magnetic attraction between actual metals. In other words, if they have hypnotized you they consider you to have been "magnetized" and under the obedient spell of their induced trance.

Nothing better illustrates this than what has transpired in America where most people have been bombarded with the psycho-war by the "wand" of the big pharma corporations, main stream media, and the radical left. America has been certainly hypnotized (Mesmerized, magnetized) by the Covid 19 events which have held the nation hostage for the last two years. And to put an exclamation point after their hypnotic display of "animal magnetism" upon America, the ancient star cult descendants of Canaan have finally revealed to all what they have done. (Just like they do in movies) The nation was "magnetized" (in the meaning of the psycho-war) with so many people having been tricked into a consent claiming "yes, I'm now magnetic". Not only do the sheep consent to the magnetization (hypnotizing), they are enthralled by it and post numerous videos for all to see just how "magnetic" they have become. Sadly, they actually think they are "exposing" the enemy, when in fact the enemy enjoys being "exposed". In putting unquestionable trust in newly formed alternative news programs which entice the people to post more videos telling everyone how much we are all "magnetized", the people (who think they are resisting the Covid perpetrators) actually have become unwitting agents for them by even more furthering the consent of the hypnosis, nation wide. Unknown to the sheep the Canaanite star cult is always 5 steps ahead of them. The people are not metallically magnetized, they are mesmerized, they don't know the difference, and they don't want to know the difference. They are on a stage, and they follow the script written for them. But let's examine the "magnetic claims":

As most of you, this author has been sent numerous videos showing people who have taken the "jab" and have joined the fad of thinking they are now magnetic, ala --- "The enemy needs to be exposed, and I'm going to do my job of it." Well dear friends, we know by now about the worst really bad effects of the shot. Nobody should have been careless enough to take it in the first place. But they were hypnotized to take it, along with wearing masks, staying away from people, and shutting down their businesses.

As mentioned before, and confirmed by the historical track record, the star cult receives great pleasure by "rubbing salt in the wound" and enticing our consent. They surely must be ecstatic to sit back and watch all the videos of the sheep competing to be

“more magnetic” than their neighbor. Their efforts to cause the American people to embrace consent of the psycho-war against our nation has succeeded beyond their wildest dreams. “We’re all magnetic” --- while the Canaanite star cult laughs to themselves “No, you’re all mesmerized, but thank you for confirming it --- and thank you Anton Mesmer, planet and star worshiper, magnetizer, and hypnotist; without your teachings about animal magnetism hypnosis we could not have been so effective. The “animals” (Christians) have been hypnotized by the Covid experiment, confirm it by their own testimony of being “magnetic”, and have now been primed for following us into utopia.”

Will those who claim to be literally magnetized recant of their unfounded assertions? No. But here’s the facts:

Flesh and skin are not magnetic. People have been taking iron supplements for decades and are nowhere near being magnetic. One video sent to me shows a man claiming to be magnetic from the jab as he places a disk shaped small magnet on his forehead, then cheek, then neck. It sticks to his skin. His conclusion? He has become magnetic from the Covid 19 “vaccine”. I had a penny on my desk and after viewing the video I was able to place the penny on myself in the exact same spots this fellow did and the penny did stick to me. I have not taken the jab. I am not magnetic. Then another video shows a woman with forks placed all along the top of her shoulders and upper back. They stick. So the claim is repeated – she has become magnetic from the Covid shot. However, when I was about five years old someone showed me how to stick a spoon on my nose and I thought it was really neat! I showed my friends how, and soon we were all walking around with spoons stuck on our nose. None of us were magnetic. The trick was to place the spoon on the nose in a certain way to balance it so it appears to be sticking, just like the lady in the “fork video” did with the forks (curve side down and placed on the shoulder tops).

The most obvious factor with these videos is that the people place flat disk shaped items on them. Dimes, nickels, flat magnets, steel washers, etc. However what is not shown is that non-magnetic disks will “stick” too. Plastic, aluminum, copper, or any other material will stay on the skin too if placed in a certain manner. This is due to our skin’s makeup of being slightly moist, oily, or “sticky” to a small degree. There are a lot of things that will “stick” to the skin. If you want to make a video just pick out a few of these items that work best for you and become an instant Internet star. A lot of these folks have nothing better to do with their lives, and enjoy their “15 minutes of fame” on the I-phone social media. Others, like lemmings running over the cliff in numbers, just want to be part of the new fad and will do anything to be part of the latest group intoxication.

But nobody is literally magnetic from this injection. A good way to disprove the wild claim is to have someone who says they are magnetic wipe their skin dry with a paper towel, dust some talcum powder on the skin, and let them place their objects upon them --- magnetism instantly gone! And while we're at it, instead of using a flat surfaced item have them try their "magnetism" with a non-flat one such as a small screw, or little steel ball bearings. And instead of them placing it on a body part slightly leaning away from a 90 degree position, have them wipe the skin surface dry with talc and place the small non-flat item on their under part of their arm, leg, or chin --- no magnetism. In fact, if the reader can find someone who is literally magnetic after drying the skin with talc and can show me (not in a vid where adhesive can be used) in person that metal objects stick to him, I will delete this article from our ministry website. If they cannot do this then why are they consenting to the psycho-war and advertising far and wide that we are all "magnetized"? Are Americans now so deluded that they value being part of the popular victim group more than standing up for truth? Apparently so.

But how and by whom did the ramblings of video magnetism begin to appear? It did not come from any true scientific study into the matter, or by any Christian Kingdom ministry long established and familiar with the antics of the New Word Order. The claims began by untraceable people in videos posted on the Internet. That is --- it was "seeded" onto the Web after the Covid debacle has done its deed of ripping the nation apart. This has universalist social planning fingerprints all over it. It smacks of devious works of associations like the Black Nobility, the Tavistock Institute, CIA, Rockefeller Foundation, and their multi plethora accomplice think tanks and social progressive organizations. If you have a cookie jar that is missing all of its chocolate chip cookies and you find children close by with cookie crumbs on their clothes and chocolate on their faces you know who stole the cookies. There is no doubt that there has been an international effort on the part of consolidated schools of psychology to retrain the world's population into become participants of the godless "utopia". Because of its dominance in this field we'll briefly mention just one group for the benefit of any reader who is not acquainted with this organization --- the Tavistock Institute. There are many other such groups that work hand in hand with each other but space does not warrant delving into them all.

Former M16 British Intelligence agent and author Dr. John Coleman, has this to say about the Tavistock Institute:

"Following WWII in 1946 the Tavistock Institute was established in London with a grant from the Rockefeller Foundation. Tavistock's pioneer work in behavioral science along Freudian lines of 'controlling' humans established it as the world centre of foundation ideology. All Tavistock and American foundation techniques have a single

goal – to break down the psychological strength of the individual and render him helpless to oppose the dictators of the World Order.” – Coleman, The Committee of 300 and the Black Nobility, 1991.

Tavistock and its many related international partners certainly have the incentive and financial wherewithal to insert the magnetic mesmerism equation into the Covid society changing plan. Remember, until the “magnetizers” obtain the people’s consent that they have been mesmerized the magnetizers have not fully taken control of the social mind. Many people are well on the way of accepting that final voluntary consent, which we see by all the increasing videos of people thrilled to be “magnetic”. I recently watched a video report from a popular alternative news show where it was an interview with a lady doctor heavily promoting the story that hundreds of people are now magnetic. Upon checking, this lady is not a virologist or medical doctor, but she is a psychiatrist. ‘nough said.

It is more effective to manage society by mind control than by physical coercion. The events of 9-11 and the “war on terror” mostly are exercises in mass brainwashing. German psychiatrist Kurt Lewin, who became director of the elite-sponsored Tavistock Clinic in 1932, developed the thinking behind 9-11. In the book “Mind Control World Control” (1997) Jim Keith writes:

“Lewin is credited with much of the original Tavistock research into mass brainwashing applying the results of repeated trauma and torture [of individuals] in mind control to society at large.” “If terror can be induced on a widespread basis into a society, Lewin has stated, then society reverts to a tabula rasa, a blank slate, a situation where control can easily be instituted from an external point.” Put another way: By the creation of controlled chaos, the populace can be brought to the point where it willingly submits to greater control. Lewin maintained that society must be driven into a state equivalent to an ‘early childhood situation.’ He termed this societal chaos ‘fluidity.’”

The term *fluidity* mentioned by the Tavistock director is interestingly used by him in light of the concept that Anton Mesmer referred to his “animal magnetism” as a force of *fluidity*. With all that is coming against America in an all out blitz to destroy it, do we need to unwittingly become workers and agents for the Black Nobility, Anton Mesmer’s psychiatric hypnotists, and the Sirius star cult, by spreading the consent that we have indeed reached a stage where we are magnetized animals? Nobody is magnetic from the Covid jab. But many have become mesmerized and hypnotized into accepting the fate planned for them. Let’s pray that the remnant in Jesus Christ will do better than this. His truth can save our nation.
