

Month 1, March/April 2026

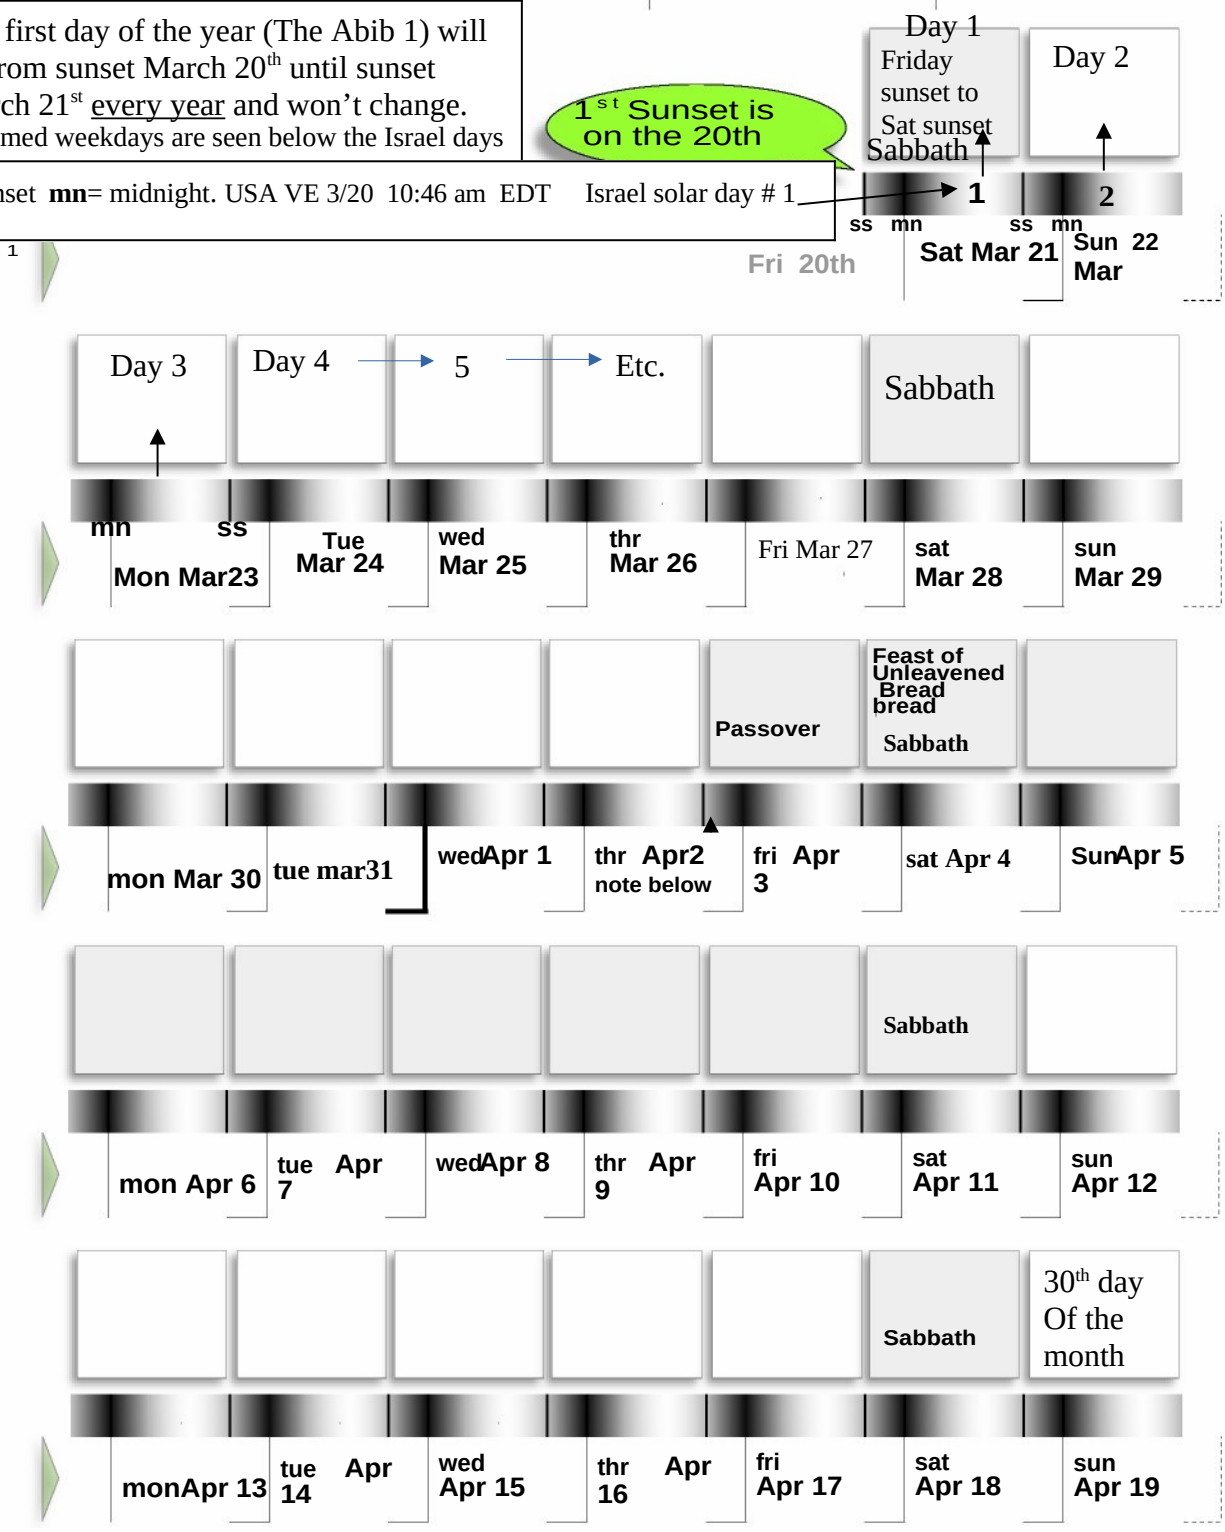

The month of THE ABIB, The Spring celestial sign, known in English as “The Vernal Equinox”. Abib originally did not mean “green crop ears” which was a later interpolation.

* YHWH's spiritual calendar year is a **standard fixed** at 364 days which may be divided into 52 Sabbath Periods. A solar year is 365 days. By God's wisdom, the Scriptural 48 hr Sabbath aligns the extra day (365th) each year making 26 Sabbaths in each half of the year. On this month each year the Sabbath will "advance" one named weekday (mon, tue, wed, etc) on our secular calendar. The Sabbaths are on the same date each year being fixed and stable. The pagan named week days are doing the shifting just as your birthday is on the same date each year but not the same day. This is also why neither Saturday nor Sunday can be the true day of rest since the pagan named days of the week are irrelevant

These solar "Witness Days" are used here according to YHWH's command!*

The Scriptural months are 30 days each x 12 = 360, but the astronomical year has 365 days. Three of the astronomical "extra" solar days end the 6th month as seen above. By YHWH's design this purposely "uses" 3 of the 5 extra solar days in a year, and automatically sets 6 work days here between the Sabbaths [Num 29:1] from the 27 day this month until the 1st day of month 7. Day 1 of month 7 is a required Sabbath (Lev.23:24). Two other solar days are seen after month 12, further proving the calendar "from two or three witnesses." Mat 18:16. These days fall in here of their own accord by the Sabbath law which commands 6 days between Sabbaths, and are not arbitrarily inserted.

February/March 2027

The "extra days" are not arbitrarily inserted. Yahweh has worked this out in His Sabbath Laws.

* The last two solar witness days (4,5) **fall in place of their own accord**, because The Law declares six work days between Sabbaths BEFORE we have the required Sabbath on Abib 1 of the next year. Three Solar Witness Days are at the end of month six, and two at the end of month twelve (here). (except leap year having 3) These "two or three witness groups" (Mat 18:16) verify each half of YHWH's year, further proving this FIXED SOLAR CALENDAR. 12 months of 30 days=360, plus 5 astronomical days=365 in the year.
